

# New paradigms for mental disorders: Neurodevelopmental, neuroprogressive and neurodegenerative perspectives

Nuovi paradigmi per i disturbi mentali: neurosviluppo, neuroprogressione, neurodegenerazione e sviluppo

**22-23 October 2018**

**Pisa, Italy, EU**

**PROGRAM**

**Hotel Galilei  
Via Darsena, 1  
56121 - PISA**

**Italian/English Event**

**Under the patronage of**

**University of Pisa**  
**Department of Experimental and Clinical Medicine**  
**(requested)**

**Santa Chiara University Hospital (requested)**

**PISA-School of Clinical and Experimental Psychiatry**  
*Institute for improving neuroscientific knowledge*  
**Pisa**

### **Scientific Committee**

Giulio Perugi (Pisa, Italy)  
Icro Maremmani (Pisa, Italy)

Department of Experimental and Clinical Medicine  
2nd Psychiatric Unit  
Santa Chiara University Hospital  
Via Roma 67, 56100 PISA  
UNIVERSITY OF PISA, Italy

### **Organizing Committee**

Laura Palagini (Pisa, Italy)  
Cristina Toni (Pisa, Italy)

Institute of Behavioural Sciences  
Via di Pratale 3, 56127 PISA

## PROGRAM

---

---

### MONDAY, October 22 2018

---

14:30	Giulio PERUGI (Pisa, Italy) - Opening remarks
	<b>Dual disorders: Towards a new paradigm in neuroscience to understand mental health</b> <i>Chair: Alfredo Sbrana (Pisa, Italy) - Francesco Lamanna (Pisa, Italy)</i>
15:00	Pedro RUIZ (Houston, Texas, USA) - Focusing on Dual Disorders
15:45	Michael KRAUSZ (Vancouver, Canada) - Homeless and hopeless – marginalized urban with complex concurrent disorders.
16:30	Icro MAREMMANI (Pisa, Italy) - Clinical Foundation of the Use of Agonist Opioid Medications in Bipolar Disorder and Psychosis
17:15	COFFEE BREAK
	<b>Title</b> <i>Chair: Giulio Perugi (Pisa, Italy) - Dina Popovic (Tel Aviv, Israel)</i>
17:30	Gabriele MASI (Pisa, Italy) - Cyclothymia and Emotional Disregulation: the Neurodevelopmental perspective
18:15	Adolfo TORTORELLA (Perugia, Italy) - Cyclothymia and neuroprogression: comorbidity and complexity

---

---

---

## TUESDAY, OCTOBER 23, 2018

---

	<i>Chair: Laura Palagini (Pisa, Italy), Armando Piccinni (Pisa, Italy)</i>
9:00	Pietro PIETRINI (Lucca, Italy) - Is Neuroscience relevant for Psychiatry? Yes, but...
9:45	Katharina WULFF (London, UK) - Circadian rhythms and mood disorders
10:30	COFFEE BREAK
11:00	Dina POPOVIC (Tel Aviv, Israel) - Neuro progression in bipolar disorder
11:45	Guido DI SCIASCIO (Bari, Italy) - Diagnosi e trattamento delle sindromi iatrogene tardive in psichiatria
12:30	DISCUSSION
13:00	LUNCH
14:00	<b>POSTERSESSION</b>
	<i>Chair: Ubaldo Bonuccelli (Pisa, Italy) - Giulio Perugi (Pisa, Italy)</i>
15:00	Shlomo NOY (Tel Aviv, Israel) - Dementia in the next 20 years: expectancy of prevalence and treatment perspective
15:45	Lorenzo LATTANZI (Pisa, Italy) - Diagnosi e terapia dei disturbi dell'umore e del comportamento nelle fasi prodromiche delle demenze
16:30	BREAK
17:00	Giulio PERUGI (Pisa, Italy) - Nuovi paradigmi della farmacoterapia della depressione: dai farmaci multimodali alla ketamina
17:45	POSTER PRESENTATIONS
18:30	LUCA ROVAI "Giovani Ricercatori" AWARD
19:00	Giulio PERUGI (Pisa, Italy) - Closing remarks E.C.M. Questionnaire

## Faculty

Ubaldo BONUCCELLI	Department of Experimental and Clinical Medicine, University of Pisa, ITALY, EU
Guido DI SCIASCIO	Azienda Ospedaliero-Universitaria Consorziale Policlinico di Bari, Bari, ITALY, EU
Francesco LAMANNA	Drug Addiction Unit, North-Western Tuscany Region Local Health Unit, Pisa Zone, ITALY, EU
Lorenzo LATTANZI	Santa Chiara University Hospital, University of Pisa, ITALY, EU
Michael KRAUSZ	University of British Columbia, Vancouver, CANADA
Icro MAREMMANI	Santa Chiara University Hospital, University of Pisa, ITALY, EU
GABRIELE MASI	Fondazione IRCCS "Stella Maris", Calambrone – Pisa, ITALY, EU
Laura PALAGINI	Santa Chiara University Hospital, University of Pisa, ITALY, EU
Shlomo NOY	Sheba Medical Center, Department of Psychiatry, Tel Aviv, ISRAEL
Giulio PERUGI	Department of Experimental and Clinical Medicine, University of Pisa, ITALY, EU
Armando PICCINNI	Santa Chiara University Hospital, University of Pisa, ITALY, EU
Pietro PIETRINI	School for Advanced Studies (IMT), Lucca, ITALY, EU
Dina POPOVIC	Sheba Medical Center, Department of Psychiatry, Tel Aviv, ISRAEL
Pedro RUIZ	Baylor College of Medicine, Houston, TEXAS, USA
Alfredo SBRANA	Department of Psychiatry, North-Western Tuscany Region Local Health Unit, Pisa Zone, ITALY, EU
Adolfo TORTORELLA	Seconda Università degli Studi di Napoli, Napoli, ITALY, EU
Katharina WULFF	Nuffield Department of Clinical Neuroscience, University of Oxford, UK

Pisa, Italy, June 8-9, 2017

8,4 Italian ECM credits  
12 hours of educational program

### *PISA-School of Clinical and Experimental Psychiatry*

*Institute for improving neuroscientific knowledge  
Via di Pratale, 3 - 56100 PISA - Italy - EU*

*Presidente: Angelo G.I. Maremmani  
Direttore Scientifico: Matteo Pacini  
Segretario-Tesoriere: Alessandra del Carlo*

The PISA-School of Experimental and Clinical Psychiatry (PISA-School of Psychiatry) was founded in November 2017 by a group of ex-students of the School of Specialization in Psychiatry at the University of Pisa. It wants to maintain over time that communion of clear and professional intent that the students have experienced during their specialisation course. The PISA-School of Psychiatry aims to be a meeting point for former students who want to continue to maintain close contact with each other and with the current and past teachers of the school. For this reason, they will organise refresher courses and specific congresses to maintain their continuing education in psychiatry at the highest level.

The PISA-School of Experimental and Clinical Psychiatry is a no-profit organisation that shall remain independent of political parties and any government. The objects of The Association are to promote, in the EU and elsewhere, the effective treatment of psychiatric patients, affective disorder and substance use disorder patients in particular, but without prejudice to the generality of the following:

- To promote at a national and international level the diffusion, the development and the progress of studies and research in the field of behavioural neurosciences, and the application of this neuroscientific knowledge to social aims;
- to promote the development and acceptance of treatment with psychiatric medications and other prescribed medications, including long-term prescribing and the utilisation of physical treatment
- to enhance the provision and quality of services to psychiatric patients and their families;
- to promote a better understanding of psychiatric treatment by the general public and its elected representatives and officials;
- to promote collaborative research and to provide a European research centre;
- to work with other Associations to promote support for psychiatric treatment world-wide;
- to promote goodwill and co-operation among the staff of psychiatric services and other medical treatment services in Europe and elsewhere,

so in pursuit of any of the preceding objects, to obtain financial support from government agencies, philanthropic organisations, corporations and any other sources, public or private.

Bacciardi Silvia, Del Carlo Alessandra, Maremmani Angelo Giovanni Icro, Maremmani Icro, Mata Hernandez Maria Belen, Pacini Matteo, Perugi Giulio, Quaranta Giuseppe, Romano Anna, Rovai Luca†, Ruffolo Giuseppe, Toni Cristina, Tusini Giuseppe, Vannucchi Giulia
